Data Map

All codes and data files related to the C2M2 project titled, "Strategic Development of Graphical User Interface Tools for Enhancing Transportation Mobility Among Vulnerable Groups During Pandemics," are openly accessible on GitHub at the following link:

https://github.com/Xuanke-git/Graphical-User-Interface-Tools-for-Enhancing-Transportation-Mobility.git

This repository includes comprehensive documentation, well-organized scripts, and datasets necessary for replicating the project's results or adapting the methodologies for other use cases.

If you have any questions about the data, please don't hesitate to contact:
