

Intelligent River[®] Bridge Flood Monitoring System to Improve Transportation Mobility

The BridgeBox™ system has been deployed on four locations in Greenville County as noted below.

Bridge ID	Stream Crossing	Road Location	Latitude	Longitude
BR391	Langston Creek	SCHOOL RD	34.88982	-82.4252
BR393	Langston Tributary	MERRIWEATHER ST	34.89358	-82.4141
BR2728	Noe Creek	WEBB RD	35.08616	-82.3653
BR388	Brushy Creek	SCOTTSWOOD RD	34.88351	-82.3007

Water level data from these deployments is ongoing available by contacting Dr. Post (cpost@clermson.edu). Specific data on system performance provided in graphical format may be available, depending on the Clemson Research Foundation as they consider commercialization potential and paths forward.
